ABOUT ME

Innovative and detail-oriented Computer Science and AI enthusiast with a strong foundation in machine learning, neural networks, data structures, OOP, and database management systems. Passionate about developing AI-driven interactive applications, leveraging expertise in Python, C, and modern web technologies to create intelligent and user-centric solutions.

EDUCATION

2020 - 2022

Toch Public School

High School Graduate

Math:95%

ComputerScienc:93%

2022-2026

Mar Baselios College
of Engineering and
Technology

Btech Computer Science with Artificial Intelligence

Currently Pursuing Bachelor of Science-Computer Science with Artificial Intelligence
Expected in 05/2026

INTERNSHIP

December 2024 –
January 2025

Full Stack Web Developer

Developed a full-stack Event Management System for users to host and join events.

Responsive frontend using React.js,

Designed and implemented a Node.js; Express.js backend to handle event creation, user authentication, and database operations.

Integrated MongoDB for efficient data storage.

SKILLS

- Machine Learning
- Database Management
- Neural Network
- C language
- Python
- OOPS with Python
- SQL
- React
